About the November 2016 Maintenance Release

The e-Builder monthly maintenance releases contain a list of resolved cases for the month.

Your Opinion Matters

We rely on your feedback to better serve you. If you have ideas about improving our product or service, please don't hesitate to let us know. Below are four ways to reach us.

- **Like/Dislike**  – Located in the banner of e-Builder Enterprise™ are like and dislike buttons. Click these to express your opinion of a particular page. This feedback is used to help prioritize upcoming product enhancements.
- **e-Builder Community** – The Ideas section of the e-Builder Community gives you a platform to share your thoughts on how to make e-Builder better. You can read and vote on the ideas of fellow e-Builder users or post your own. Those with the highest vote totals are noted when forming e-Builder's roadmap. To access the Community, click the arrow next to your username within the banner of e-Builder Enterprise, and then click eB Community.

- **Support** – Our Support staff is always available to meet your needs. To speak to a live customer service representative, call us within the U.S. at 888-288-5717 and outside of the U.S. at 800-580-9322, or email us at support@e-builder.net.
- **Annual Technology and User Conference** – The annual e-Builder Technology and User Conference offers a unique and up-close opportunity to gain insight into e-Builder product direction, learn best practices from industry professionals and peers, and to exchange information and ideas with members of the e-Builder community.

What's included in this Document

- A list of resolved cases

Release Note Change Log

The release note change log includes all changes made to this version of the Release Notes document.

Date	Version Number	Description
November 17, 2016	1.0	Initial Release

Resolved Cases

The following is a list of resolved cases for the month of August. If you have any questions regarding this maintenance release, please contact e-Builder Support at 888-288-5717 or via email at support@e-builder.net.

Module	Number of Resolved Cases
Administrative Setup	2
Bidding	1
Business Intelligence	1
Calendar	1
Cost	4
Documents	1
MISC	1
Mobile Application	1
Processes	1
Reports	3
Submittal	3
Time Tracking	3

Administrative Setup

Case Number: 00183275

Previously, if a required field was missed when adding a task to a Schedule Template an error banner was displayed, even after correcting the required fields. Now, once the required fields are adjusted the banner disappears as expected.

Case Number: 00198293

Previously, when running a scheduled task duplicate Commitment Custom Field values were created, resulting in duplicate records being visible in the exported file. Now, updates have been made to prevent duplicate records from being generated.

Bidding

Case Number: 00197792

Previously, the Bid Submission Custom Fields reorder feature was not functioning properly. Now, the reorder feature is performing as expected.

Business Intelligence

Case Number: 00195073

Previously, when attempting to view linked reports from the parent report, the BI Reporting tool was not loading the linked report properly. Now, linked reports properly loaded when executed.

Calendar

Case Number: 00198419

Before, when attendees who were not e-Builder users accepted a calendar invitation an error occurred and the user's response was not received by e-Builder. Now, all responses are received without error.

Cost

Case Number: 00188753

Previously, when editing a Funding Source from a different time zone than the e-builder servers, the system was matching the time of the change to the e-Builder server. Now, when editing the Funding Sources the system records the change in the time zone of the logged in user.

Case Number: 00194416

Previously, when multiple Mail Merge Templates were available on the Budget Details page and the user executed a Mail Merge, the Mail Merge was not generated as expected and no warning was provided. Now, the Mail Merge execution functions as expected.

Case Number: 00196700

Before, when converting the Commitment type from Non-PayApp to PayApp, the values were not being displayed in column C (Schedule Value) and D (Work in Place from Previous Applications) of the invoice items grid. Now, the values are being displayed in columns C and D as expected.

Case Number: 00200071

Previously, when a Schedule Task was configured to download files from an FTP server, an error occurred due to improper construction of the file path. Now, the code had been adjusted to ensure the files are downloaded successfully.

Documents

Case Number: 00181101

Previously, the Documents grid was sorted by 'Date Uploaded' by default but this data point was being

hidden from the Documents grid and it was not clear to the user how the documents grid was being sorted. To help clarify the sort order, the documents grid has been update to include the 'Date Uploaded'. Note: There is an option in Setup > My Settings to change the default sort order of the Documents Grid.

Case Number: 00193530

Before, when attempting to view a PDF file, the document would open but the pages were blank. Now, the logic behind reading PDF files has been updated and the error will no longer occur.

Forms

Case Number: 00196632

Before, when printing a Form with a landscape PDF document an error would occur. This issue has been addressed and the Form will print correctly.

MISC

Case Number: 00191141

Previously, some columns on the Periodic Estimate and Executive Summary sheets were using excel formulas and/or totaling values at the bottom unexpectedly. Now, all formulas and values are being displayed as projected.

Mobile Application

Case Number: 00191141

Before, when approving a PayApp Invoice from the mobile app an error occurred. Now, the PayApp Invoice can be approved without error from the mobile app.

Processes

Case Number: 00193185

Before, when attempting to remove Process Lookup Data Fields an error occurred which prevented the user from being able to the delete the Data Field. Now, lookup Data Fields that are no longer part of a Process can be deleted without error.

Reports

Case Number: 00191814

Previously, an error occurred when filtering for Master Commitments in a Process Log Report. Now, the Process Log Report supports filtering for Master Commitments.

Case Number: 00193109

When a Scheduled Report fails unexpectedly the status shows as not available and does not update

when the system automatically resets. Now, when the system automatically resets the status updates as expected.

Case Number: 00196528

When applying Templates an unexpected error occurred and there was no way to easily identify the source. A more detailed log has been added to be able to indicate what triggered the error and allow support to quickly address the root cause.

Submittals

Case Number: 00197787

Previously, when using the free entry option for CSI codes, the numbering would always duplicate due to the duplicate number check using faulty information. Now, the free entry option for CSI codes will correctly check for duplicates and update the numbers accordingly.

Case Number: 00200284, 00200655

Before, when attempting to import Submittal Items and the preference to populate spec section from CSI list is turned off an error occurred preventing the data from mapping correctly. Now, all fields map correctly when importing Submittal Items.

Case Number: 00197787

Previously, when using the free entry option for CSI codes, the numbering created duplicates because of the duplicate number check using incorrect information. Now, the free entry option for CSI codes will correctly check for duplicates and update the number accordingly.

Time Tracking

Case Number: 00189534

Previously, the Automation step in a Time Tracking Workflow failed to run and Timesheets were not proceeding in the workflow as expected. A data fix was applied to Time Tracking Workflow to move the stuck Timesheets to the next step.

Case Number: 00196874

Previously, when editing a Timesheet that contained a row marked as favorite and new rows were added, the new rows were not editable. Now, rows that are added in any case will be editable.

Case Number: 00199532

Before, when attempting to save a Timesheet an error would occur. Now, Timesheets save successfully.

User Setup

Case Number: 00199532

Previously, if the difference between the Start and End Date was a long period of the time, when a user Delegated Access to another user, an error occurred when switching from your personal account to the delegated account. This issue has been addressed and large differences in the Start and End Date no longer cause an error.
