# Maintenance Release Notes

## SEPTEMBER 30, 2019

# Table of Contents

# Resolved Cases

The following is a list of resolved cases for the past month. If you have any questions regarding this maintenance release, please contact e-Builder [Technical Support](#).

## API

| Case # | Resolution Notes |
| --- | --- |
| 319182 | Resolved an issue caused by a typographical error on the Users Custom Fields REST API. The custom field is now loaded and displays the information correctly. |

## AppXchange

| Case # | Resolution Notes |
| --- | --- |
| 328400 | Resolved an issue with the "Funding Source - GET" API schema that was caused by an invalid model definition. Now, the funding source object is successfully imported in Boomi. |

## Bidders Portal

| Case # | Resolution Notes |
| --- | --- |
| 328396 | Clarified the error message received by a bidder attempting to submit a bid after the deadline. |

## Bidding

| Case # | Resolution Notes |
| --- | --- |
| 328974 | Resolved an issue that prevented the Bid Contact from viewing files uploaded by a bidder when the bid deadline had been extended. |

## Calendar

| Case # | Resolution Notes |
| --- | --- |
| 316941 | The Save button was not visible on the Add Event page. This issue has now been resolved and the Save button is visible. |

## Cost

| Case # | Resolution Notes |
| --- | --- |
| 315169 | Previously, approving a commitment change was throwing an error due to duplicated new scope commitment item numbers. Now, the system shows a message about the duplicate line item number and disallows approval. |
| 318022 | Resolved an error with rounding-off the data on the downloadable Schedule of Values worksheet.<br><br>On the Start Process or Instance Details page for a Commitment Invoice process for a commitment with a Commitment Type for PayApp (Not ProjectSight SOV) and for Lump Sum, the downloadable spreadsheet will now have proper rounding to 2 decimal places including the column 'Retained This Period' (except for Retainage Percentage which should round to 4 decimal places).<br><br>Unnecessary calls to Excel formula functions 'ROUND' and 'SUM' were also removed. |
| 329104 | Resolved an issue that prevented users from submitting invoices against master commitments without errors. When Project Commitments are approved by process, the Master Commitment Items' amounts should now be set to the Project Commitment Items' amounts instead of remaining zero. |
| 329263 | An error was displayed when trying to edit a budget line item. The system will not consider spaces as valid characters for segment codes. Now, a trim will be made to avoid spaces in those fields. |
| 330747 | Resolved an error that prevented users from being able to use a Commitment Change process import properly.<br><br>The changing amounts were being incorrectly validated against the cost controls when the Commitment Change process imports took actions that changed the status |

to void from draft or pending. Now, cost control checks are skipped when voiding a draft or pending Commitment Change Process through an import.

## Custom Development

| Case # | Resolution Notes |
| --- | --- |
| 326021 | Resolved the issue by correcting the order in which the item is being selected. The issue was the [last created commitment item was selected by the code step]. This applies to all uses of this code step. |

## Documents

| Case # | Resolution Notes |
| --- | --- |
| 326861 | Resolved an issue where dragging a folder with files for uploads caused intermittent errors when there is network latency. |
| 331780 | Resolved an issue where customers were able to see the names of folders to which they did not have access. |

## Forms

| Case # | Resolution Notes |
| --- | --- |
| 329527 | Resolved an issue where attaching a file to a form with a default destination set would result in the form being saved as a draft. |

## Processes/ Workflow

| Case # | Resolution Notes |
| --- | --- |
| 324898 | When documents for starting a process offline are downloaded, all pages are now correctly displayed in Word. |
| 327289 | Resolved an issue for Connected RFIs where a process step configured to add a required comment on taking action was not sending the comment to ProjectSight. |

| 328651 | The project zip code field has a maximum length of 10 characters. Data validation has been put in place to ensure that this is not violated. This applies to all uses of this code step. |
| --- | --- |
| 329502 | Resolved an issue where the validation failed in the code step: Approve CCOPs. Improved the SQL statement to use just the needed columns. |
| 336796 | Fixed an error that occurred when accessing the 'Attached Documents' tab on the Start Process function for a commitment Invoice. |

## Reports

| Case # | Resolution Notes |
| --- | --- |
| 327937 | Resolved an issue with a field not being displayed when trying to add a formula column. In the Reports module, the custom fields drop-down list in the formula creation/editing form was missing fields of the "aRoleMember" data type. |
| 328835 | Resolved an issue that prevented users from being able to sort a BI Report. This has been fixed and users are now able to sort and filter by those date fields properly. |
| 329149 | Added a check to the export to Excel to utilize different settings if the report column is grouped by year. |

## Schedules

| Case # | Resolution Notes |
| --- | --- |
| 326029 | Changes made to the working time were not applying after saving them. Resolved this issue by fixing the working time conversion to save to and load from UTC according to the user-defined time zone. |
| 328424 | Resolved an issue that incorrectly allowed users to paste data into un-editable columns. Now, users will not be able to paste data into those columns. |

## Search

| Case # | Resolution Notes |
| --- | --- |
| 330629 | Global Search now correctly handles both commitment and general invoice scenarios. |

## Your Opinion Matters

We rely on your feedback to better serve you. If you have ideas about improving our product or service, please don't hesitate to let us know. Below are four ways to reach us.

- **Like/Dislike** 👍 Like 👎 – Located in the banner of e-Builder Enterprise™ are like and dislike buttons. Click these to express your opinion of a particular page. This feedback is used to help prioritize upcoming product enhancements.
- **e-Builder Product Ideas** – The Product Ideas portal gives you a platform to share your thoughts on how to make e-Builder better. You can read and vote on the ideas of fellow e-Builder users or post your own. The number of votes is one of the factors considered when forming e-Builder's roadmap. To access the Product Ideas portal, click the arrow next to your username within the banner of e-Builder Enterprise, and then click Product Ideas.

- **Support** – Our Support staff is always available to meet your needs. To speak to a live customer service representative, call us within the U.S. at 888-288-5717 and outside of the U.S. at 800-580-9322, or email us at support@e-builder.net.
