Resolved Cases

The following is a list of resolved cases for the past month. If you have any questions regarding this maintenance release, please contact e-Builder [Technical Support](#).

Bidder Portal

Case #	Resolution Notes
365917	Corrected the item elements of the Bid Custom Field drop-down list so that selection works as expected.

Business Intelligence

Case #	Resolution Notes
360316	Accounts with Resource Management and Cost enabled can use the Budget Line Item subcategory in the Schedule category in BI Reports. Accounts with Resource Management and Cost disabled will not see the Budget Line Item subcategory in the Schedule category.
367631	A BI Report was not working and would display a blank page after it was run. This issue has been resolved.

Cost

Case #	Resolution Notes
365609	The Setup Cash Flow module was missing additional types (Link to Schedule & Link to Task) under the Schedule Link Type drop-down list.

Documents

Case #	Resolution Notes
355315	Users can now view Bluebeam files after the session has been finalized.

Notification Engine

Case #	Resolution Notes
361087	After the mail merge was processed, the actors on the previous step were not getting notifications since those actors were moved to a history table. Updated the code to now get actors from the previous step's history and send them notifications.

Planning

Case #	Resolution Notes
333703	Previously, on Unit Cost "UC" scenario items where the user selected "SF" for Unit of Measure, the "SF" values input by the user were being converted to the Scenario's Gross "SF" value once the scenario was reloaded or published. This system behavior has been corrected to maintain the user input "SF" values.
347466	The user was unable to access Setup Planning - Scenario Templates without errors. The issue occurred with items of the type "Formula". The system did not save the updated selected value on a formula item if the newly selected category has the same total estimate value. Now, the system works properly.

Processes/ Workflow

Case #	Resolution Notes
357894	Applied query optimizations.
357894	Optimized the query to improve system performance.
359628	Optimized the query to improve system performance.
363397	An e-Builder error occurred when accessing process routing history. Optimized the query to resolve this issue.
363397	An e-Builder error occurred when accessing process routing history. Modified the query to resolve this issue. Applied optimizations on the project processes view request related to constant project fields and traversed actor steps.

Reports

Case #	Resolution Notes
367572	Scheduled BI Reports did not run and export correctly. Users could not run the reports manually either. This issue has been fixed.
367815	A subscription report did not run at the scheduled time consistently. This issue has been fixed.

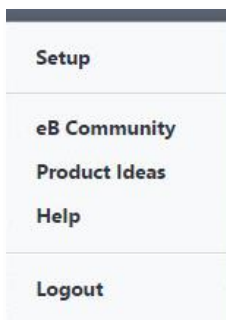

Schedules

Case #	Resolution Notes
359021	The SQL timeout for the failing query was using the 35 second default. The timeout value has been increased to allow the query to complete. Additional query optimizations were made to delete operations.
359364	The system tried to unlink tasks from the cash flow while updating or removing tasks through the schedule import. This issue has been fixed.
367638	Users were unable to add tasks to a Schedule Template and could not activate a Draft Template either. Optimized the query to improve system performance for the Schedule Import feature.

Your Opinion Matters

We rely on your feedback to better serve you. If you have ideas about improving our product or service, please don't hesitate to let us know. Below are four ways to reach us.

- **Like/Dislike**  – Located in the banner of e-Builder Enterprise™ are like and dislike buttons. Click these to express your opinion of a particular page. This feedback is used to help prioritize upcoming product enhancements.
- **e-Builder Product Ideas** – The Product Ideas portal gives you a platform to share your thoughts on how to make e-Builder better. You can read and vote on the ideas of fellow e-Builder users or post your own. The number of votes is one of the factors considered when forming e-Builder's roadmap. To access the Product Ideas portal, click the arrow next to your username within the banner of e-Builder Enterprise, and then click Product Ideas.

- **Support** – Our Support staff is always available to meet your needs. To speak to a live customer service representative, call us within the U.S. at 888-288-5717 and outside of the U.S. at 800-580-9322, or email us at support@e-builder.net.
